

8 Things You Should Know about Student Data

- 1 We take our responsibility seriously to keep information about your child safe and secure.
- 2 Strict privacy and security policies established by the school district, as well as state and federal student data privacy laws, protect your child's data. These laws limit what kinds of data can be collected and restrict sharing of that data. You can read our Student Data Privacy Policy on our district's website: <https://tech.svvsd.org/studentdataprivacy/>
- 3 There are penalties in place for misusing student data or breaking these laws and policies.
- 4 Access to data in our district is restricted to authorized users only. Users, including service providers to the district, are only given access to the data they need to do their jobs.
- 5 Our teachers are trained and committed to protect your child's data.
- 6 Student data allows our teachers to personalize learning for your child and helps ensure he/she succeeds in school and beyond.
- 7 Data helps provides an accurate and up--to--date view of how our schools, teachers and students are performing.
- 8 You can ask for your child's education record at any time.
