

Exiting Students Technology Reminders

<http://stvra.in/goodbye>

Your District Account

Your district account for email, Infinite Campus, etc. will be disabled the night after your last day in school. If you are a graduating senior your account will expire on June 30. Here are some steps to take before you go:

1. Apple ID

Log into Apple (appleid.apple.com) and make sure you have a non-svvsd.org email address set as your Apple ID

2. iPad Files

Before you turn in your district iPad, download, transfer, or forward any pictures, movies or other files you would like to keep to a personal account.

BYOD? Remove it from Mobile Device Management (see stvra.in/goodbye)

3. Email

Send an email to your important contacts, like colleges, letting them know your personal email address for future communication.

4. Infinite Campus

Log into the Infinite Campus Portal (ic.svvsd.org), go to Contact Preferences and enter a Secondary Email Address. This will allow your school to contact you in the future. (reunions, etc.)

5. Google Drive

Transfer personal Google Drive files you wish to keep to a personal Google account. (see stvra.in/goodbye)

6. Schoology

Review Schoology and make sure you have copies of any of your content you want from there.

7. Other Documents

Copy any of your files stored on district computers, school shares, or file servers to a thumb drive you can take with you.
