

Parent/Guardian Expectations and Commitments

Learning Technology Plan

This document summarizes the commitments SVVS will honor to ensure the highest quality learning opportunities with technology for your child. In addition, it outlines expectations for ways that you, the parent or guardian, can assist us as part of the St. Vrain Valley Schools (SVVS) Learning Technology Plan (LTP).

Parents/Guardians are also expected to familiarize themselves with the LTP - Secondary Student Expectations, which can be found at <http://bit.ly/SVVSDEXPECTATIONS> .

The equipment referenced in this document is currently an iPad, a case, a lightning cable, and a charger. These items remain the property of SVVS and are issued to your student during the school year as long as you meet the expectations outlined here.

The LTP website referenced in many of the items below can be found at <http://ltp.svvsd.org>.

Parent/Guardian Addendum to Student Expectations and Commitments:

SVVSD and School Commitments:

1. Your school and SVVS commit to providing online resources, information, and updates about the program on the school's website and at the LTP website.
2. Your school and SVVS will provide information to you about low cost Internet service upon request.
3. SVVS will set up restrictions on your student's iPad to limit access to certain apps and content. You can find more about the default restrictions at the LTP website. Your school may also set up additional restrictions as needed to assist in managing student use.
4. You may give feedback and input about the Learning Technology Plan at <http://bit.ly/ltpfeedback>.

Family Expectations:

1. **The SVVS Internet filter works only when using the SVVS network.** You are encouraged to set boundaries, safeguards, and expectations for technology use at home that align with your family values. You can find information on restrictions, family limits, and filtering on the LTP website.
2. **You and your student are responsible for the care of this device and any costs for repair or loss** as outlined in the Student Expectations and Commitments. An optional insurance program is available to assist with these costs. Because SVVS is the sole owner of the iPad, repairs can only be facilitated through district processes.
3. **You have the right to monitor your student's use of the device** and know their passwords. Your school can assist or you can find information on the LTP website.
4. **You have the right and the ability to set up additional restrictions on your student iPad** beyond what is set by the district. You can find information on how to do so at the LTP website.
5. **The iPad provided to your child is intended to be a tool for learning.** While you should ensure that it is accessible for school work at home, you are encouraged to set healthy limits for home use.
6. **You have the right and the ability to use the iPad to extend your family's learning.** You and your family are encouraged to use the iPad to support your family's learning beyond what is expected by your school. You may install additional apps and content on the iPad for your family's use provided it does not violate our district's Responsible Use Policy (JS, <http://bit.ly/PolicyJ>) and does not interfere with your student's learning.
