

## **Secondary Student Expectations and Commitments**

### **Learning Technology Plan**

This document summarizes the commitments SVVS will honor to ensure the highest quality learning opportunities with technology and outlines expectations for you, the student.

The equipment referenced in this document is currently an iPad, a case, a lightning cable, and a charger. These items are the property of SVVS and are on loan to you during the school year as long as you meet these expectations. Your school may set consequences for failure to follow these terms, including the loss of this privilege. Board policies referenced below can be found at <http://bit.ly/PolicyJ>

#### **Student Expectations:**

1. **Ownership:** If you transfer to another school or leave the district, you are expected to return the iPad and charger in good condition because the equipment belongs to SVVS, it does not belong to you.
2. **Protective Case:** You are expected to keep your iPad in the provided case at all times.
3. **Privacy:** Because this iPad belongs to SVVS, your school has the right to review the content at any time per Board Policy JS.
4. **Loss:** If you lose your device, you are expected to let your school know immediately and to provide information to help recover it if possible.
5. **Repair and Replacement:** You and your family are responsible for the care of your device and accessories. If they are broken or lost, you must report it to your school and may be responsible for the cost of repair or replacement. Because SVVS is the sole owner of the iPad, repairs can only be facilitated through district processes.
6. **Policies and Rules:** You are expected to abide by the SVVS Responsible Use Policy JS and any rules set by your school, teacher, or parent while using the iPad.
7. **Sharing and Respecting Privacy:** You should respect the privacy of others and not record, photograph, or share personal information of others unless you have their permission.
8. **Restrictions:** You are expected to abide by the restrictions placed on your iPad and not attempt to jailbreak or bypass any limits set by the district, your school, or your family. You are expected to use the district network to access the Internet while on district property.
9. **Content:** You are expected to use good judgment in deciding what to load onto your device. Remember, your iPad is a learning tool and you may be asked to remove content that is not related to learning.

#### **SVVS Commitments:**

1. **District Resources:** SVVS will provide a copy of all required apps and content at no cost to you.
2. **Cables:** SVVS will provide you with a new USB to Lightning cable upon enrollment. If you lose or damage this cable, you are responsible for replacing it. Insurance may help with this cost.
3. **Damaged Devices:** If you opt into the Insurance program and accidentally damage your iPad, SVVSD will provide a replacement to you as quickly as possible at no charge for a first incident. If you choose not to opt into the Insurance program, SVVS will communicate a repair cost to you and provide a replacement after restitution is made. A loaner may be provided at the discretion of your school.
4. **Support:** SVVS will provide you with resources and help through the district's website and your school's designated support person.
5. **Internet Filter:** SVVS filters inappropriate Internet content while you are at school but DOES NOT filter Internet content when you are away from the school network. You are expected to abide by the Responsible Use guidelines when using district-issued technology even when off the SVVSD network.
